McNary Dam offers educational presentations

UMATILLA, Ore. – Visitors can learn more about plants and wildlife common to the region during an educational hike offered by McNary Natural Resources Management on Nov. 5 at 10 a.m., U.S. Army Corps of Engineers officials announced today.

Walla Walla District Park Ranger Doug Helman will lead hikers on a two-mile walk through the McNary Wildlife Nature Area, located on the Oregon side of the Columbia River near the dam.

Hikers should wear shoes appropriate for walking that distance and plan for the possibility of encountering wet or muddy trails. The hike will last about two hours.

Participants will meet at the trailhead in the wildlife area along Ferry Road, with the hike beginning promptly at 10 a.m. For more information, call (541) 922-2268.
